

*International Conference on the Work of
Charles Parsons*

Intuition and Reason

The 27th International Workshop in The History and Philosophy of Science

Monday-Thursday, December 2-5, 2013

**Monday, December 2
Tel-Aviv University**

10:00-10:30 — Greetings

Yossef Schwartz, Director, The Cohn Institute,
Tel-Aviv University
Eli Friedlander, Chair, Department of Philosophy,
Tel-Aviv University

10:30-11:00

Solomon Feferman, Stanford University
TBD

11:00-12:30

William Tait, University of Chicago
In Defense of the Ideal

12:30-14:00 Lunch Break

14:00-15:30

Wilfried Sieg, Carnegie Mellon University
Hilbert's Axiomatic Ways: Structural and Formal

**Tuesday, December 3
Tel-Aviv University**

10:00-13:00

KANT

Ofra Rechter, Tel-Aviv University
Kant and 'Mathematical Intuition'

Emily Carson, McGill University

'Arithmetic and the Categories' Revisited

Daniel Sutherland, University of Illinois at Chicago

**Kant's Conception of Quantity and Arithmetical
Objects**

13:00-14:30 Lunch Break

14:30-16:00

Michael Friedman, Stanford University
**From Intuition to Tolerance in Carnap's
Philosophy of Mathematics**

16:00-16:30 Coffee Break

16:30-18:00

Øystein Linnebo, University of Oslo
Modality in Mathematics

Wednesday, December 4 The Van Leer Jerusalem Institute

9:00-13:45

HUSSERL to GÖDEL

9:00-9:30

Dagfinn Føllesdal, University of Oslo, Stanford University
Husserl, Gödel and Parsons on Idealism and Realism

9:30-11:30

Richard Tieszen, San Jose State University
**Mathematics, Logic and Transcendental Philosophy:
Husserl and Kant**

Michael Roubach, The Hebrew University of Jerusalem
Husserl's Notion of Mathesis Universalis

11:30-11:45 Coffee Break

11:45-13:45

Tali Leven, Open University, Israel
**On the Role of Intuition in Abraham Robinson's Turn
to Formalism**

Mark van Atten, CNRS France
Intuition and Induction

13:45-15:00 Lunch Break

15:00-16:30

Carl Posy, The Hebrew University of Jerusalem
Parsons' Kantian Structuralism

16:30-16:45 Coffee Break

16:45-18:15

Peter Koellner, Harvard University
On Gödel's Disjunction

Thursday, December 5 The Van Leer Jerusalem Institute

09:30-11:15

FREGE

Stewart Shapiro, Ohio State University
On Frege's Theory of Real Numbers
(joint work with Eric Snyder)

Gilead Bar-Elli, The Hebrew University of Jerusalem
**Philosophical Constraints on Analytical Definitions
in Frege**

11:15-11:30 Coffee Break

11:30-12:30

Mark Steiner, The Hebrew University of Jerusalem
**Parsons, Hume and Maimonides on Imaginability
and Possibility**

12:30-13:30 Lunch Break

13:30-16:00

TRUTH

Gila Sher, University of California at San Diego
Mathematical Truth: Between Posits and Reality

Michael Glanzberg, Northwestern University
On Truth and Hierarchies

16:00-16:15 Coffee Break

16:15-16:30 — Greetings

Gabriel Motzkin, Director, The Van Leer Jerusalem Institute

16:30-18:00

Charles Parsons
Analyticity for Realists

Academic Directors: Ofra Rechter, Michael Glanzberg

Admission is free

Venues:

Tel-Aviv University: 496, Gilman Hall, Tel. 03-6409198

The Van Leer Jerusalem Institute: 43, Jabotinsky St., Jerusalem

Tel. 02-5605222 / www.vanleer.org.il

Parking is not available at the VLJI (Metered parking is available on the neighboring streets).
